

Mohamed Galal

WORDPRESS DEVELOPER & SEO EXPERT

A WordPress developer with over 5 years of experience in designing and developing websites using multiple technologies, including PHP, Laravel, WordPress, Node.js, and React. I have extensive experience in implementing websites in various fields such as corporate, real estate, news, publishing houses, e-commerce, academies, and more.

I am proficient in designing websites using ready-made themes and customizing them or developing custom themes from scratch. I have substantial expertise in page builders such as Elementor, Bricks, and WPBakery with ACF and JetEngine. Additionally, I can convert Figma designs into fully responsive websites across different devices.

I also have significant experience in troubleshooting WordPress issues and managing servers.
